

AUTO BATTERY FLOW RACK

Batteries move by gravity on inclined shelves, load at the rear, pick from the front

Automatic stock rotation-

Always first in first out. Load at the rear pick from the front.

Easy Access, Avoid injuries-

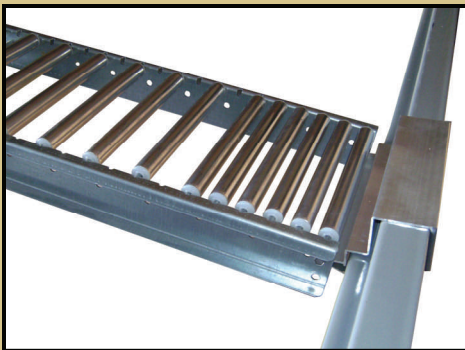

Batteries are heavy! With flow rack batteries are always at the front of the shelf for easy picking ... no reaching.

Heavy Duty-

Welded uprights with 3" wide post. Conveyor track has aluminum rollers with steel axles.

Save Floorspace-

Store many more batteries in less space than ordinary shelving.

Conveyor track-

9-3/4" wide with 3/4" diameter rollers on 2" centers. Steel axles. Includes extra rollers at front and rear for added impact resistance.
